<https://one-conference.nl/>

The ONE Conference is Europe's prime cybersecurity event. A leading platform for sharing knowledge, best practices and research results. This year's edition will take place on 3 & 4 October. Both days offer a plenary programme as well as optional breakout sessions in smaller groups.

A wide variety of topics will be addressed: from highly technical subjects such as malware detection, incident response, and law enforcement cases to less technical subjects, such as partnerships between the public and the private domain, governance and recent cybersecurity research.
