4. Actividad por sectores

4.1. La “doble contabilidad” en la distribución sectorial

De acuerdo con el formato en el que el BASD publica la información sobre los proyectos en cartera, se produce un efecto de “doble contabilidad” como consecuencia de que, en ocasiones, algún proyecto está clasificado en 2 o más sectores, sin especificarse qué porcentaje del proyecto se asigna a los sectores representados. Como consecuencia de esta situación, la suma total de los proyectos en cartera para el periodo de 2022 a 2024 pasa de, \$108.421,5 millones de dólares distribuidos en 1259 proyectos o acciones a \$115.892,6 millones de dólares distribuidos en 1303 acciones o proyectos que prevén sean licitados con los mecanismos del BASD:
