

ANNEX 3 - CHINA INTERNATIONAL IMPORT EXPO (CIIE 2024) Spain's Design Guidelines

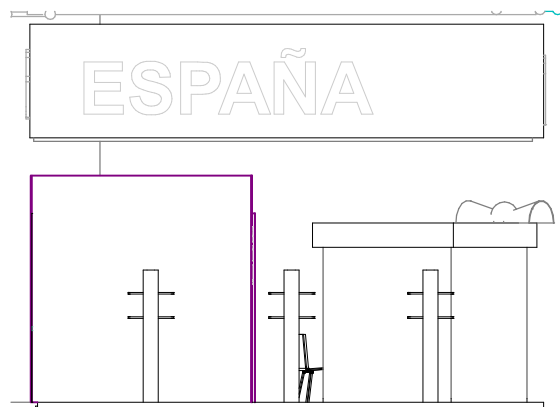

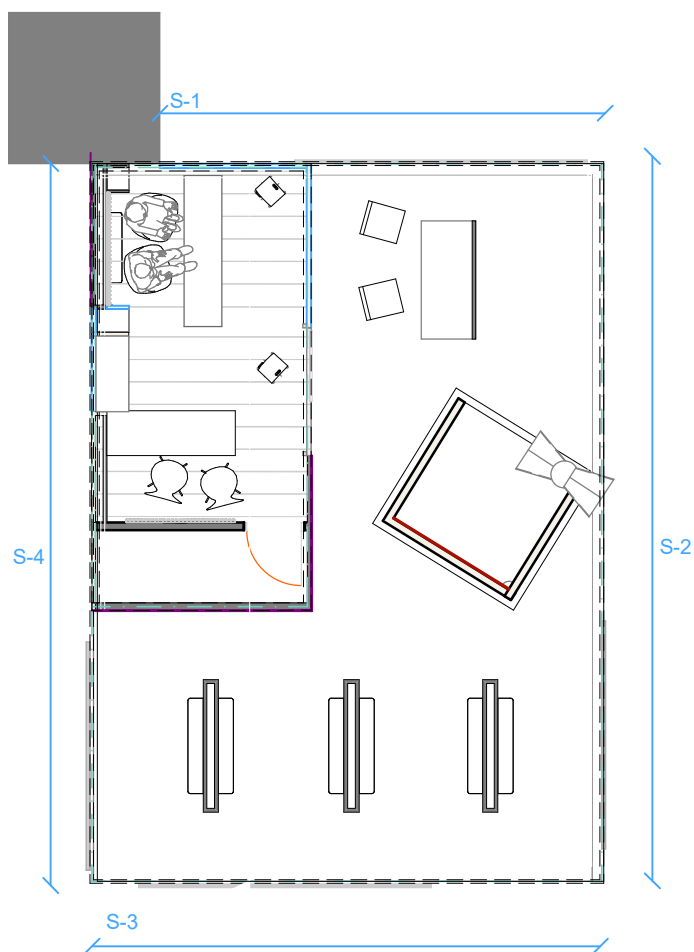

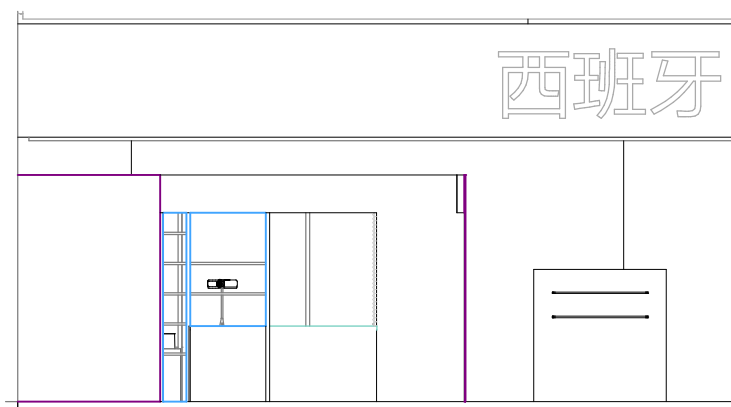

S-1

S-2

S-3

S-4

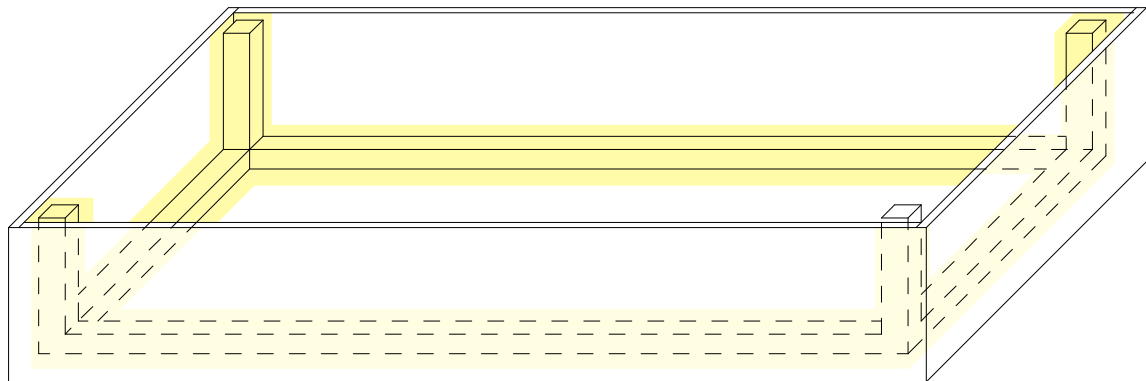

The hanging sing consists of the structure and three elements:

- LED tubes inside or lighting inside box
- Translucent material that wraps the signage in height (could be a white fabric)
- Light corporeal letters

IMPORTANT:

The lights and the structure go behind the translucent material

The illuminated letters go above the translucent material.

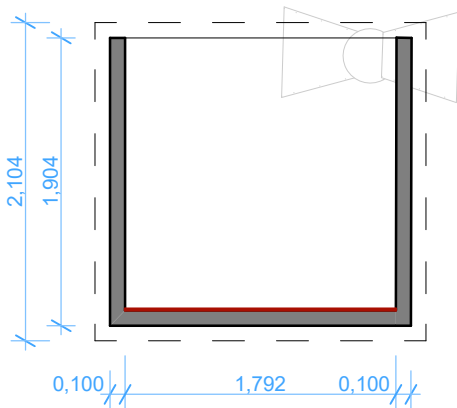

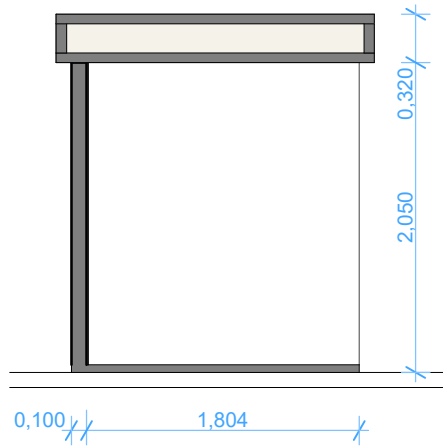

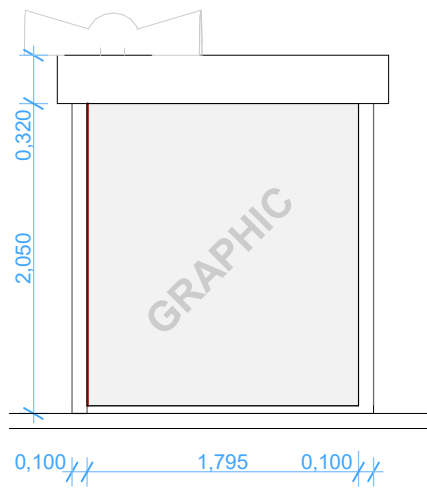

Example of light inside

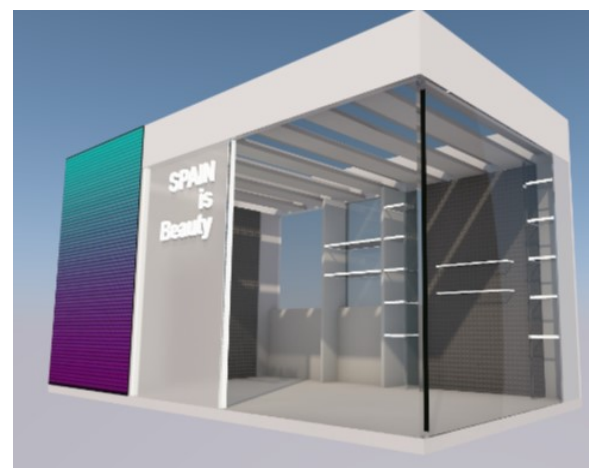

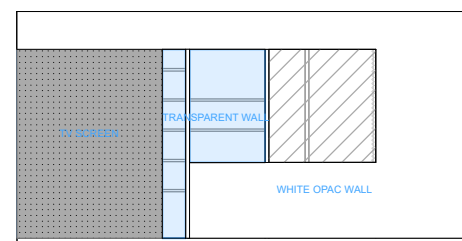

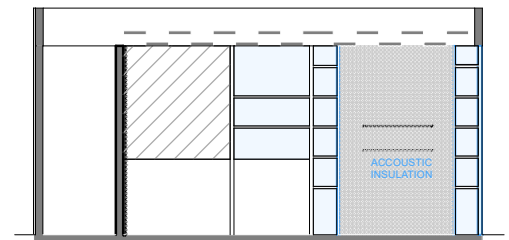

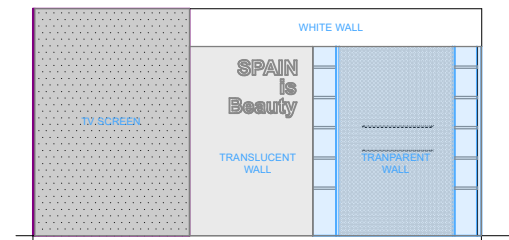

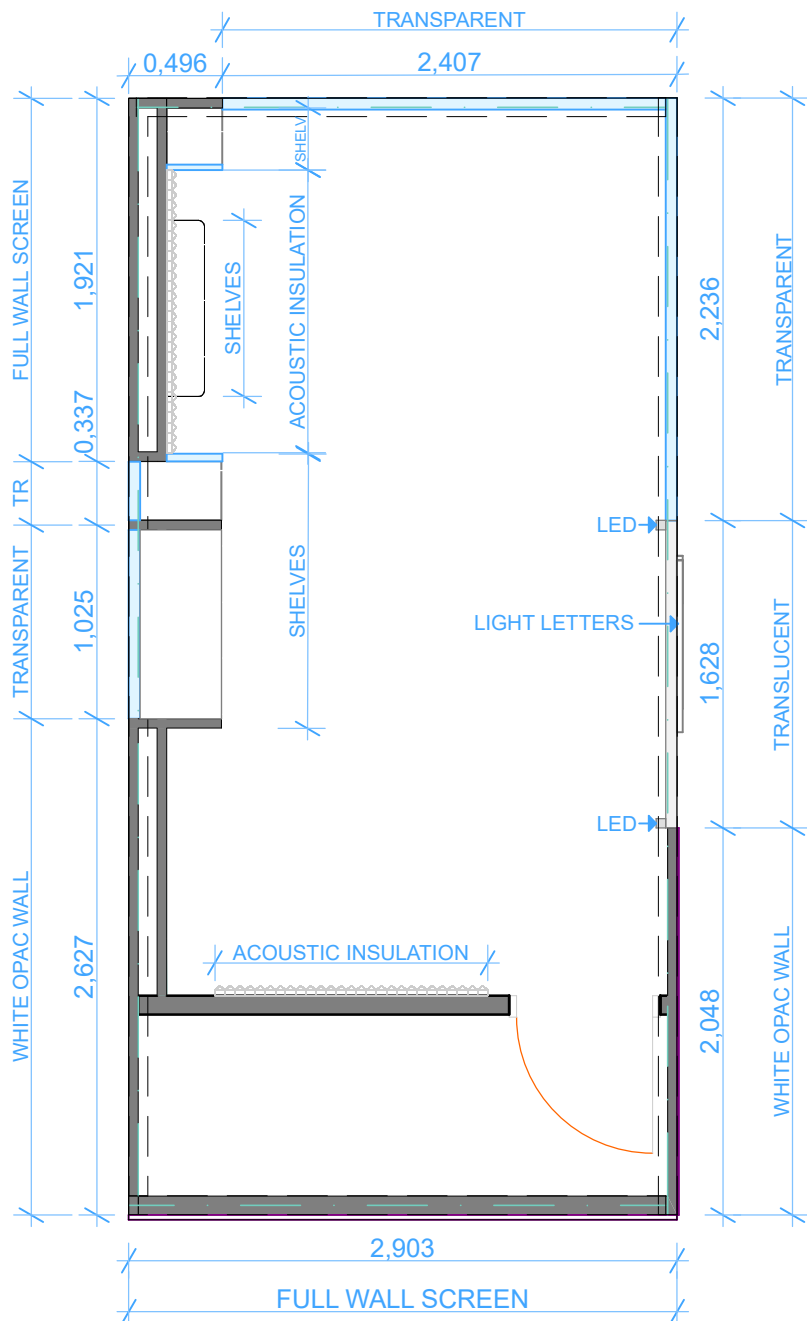

Example of lighted corporeal letters

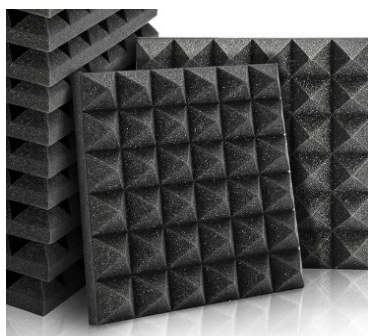

The box must have lighting inside. Spotlights or small lights are permitted if they are elegant, in keeping with the design of the pavilion and provide good lighting for taking photographs.

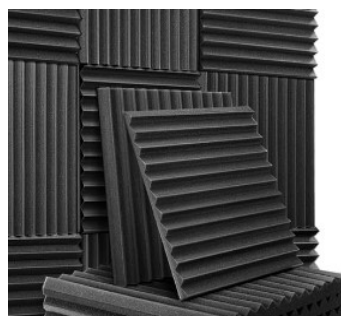

Your design will be taken into account.
